&%@!+* Women Drivers!

Driving to the office this morning on the interstate, I looked over to my left and there was a women in a brand new mustang doing 65 miles per hour with her face up next to her rear view mirror putting on eyeliner! I looked away for a couple of seconds and when I looked back she was halfway over in my lane, still working on that make up!!!

It startled me and I dropped my electric shaver, which knocked the donut out of my other hand. in all the confusion of trying to straighten out the car using my knees against the steering wheel, it knocked my cell phone from my ear, the phone fell into the coffee between my legs, splashed and burned Big Jim and the twins, ruined the damn phone and DISCONNECTED AN IMPORTANT CALL!!
